The installation of all gas piping shall comply with each IFGC and/or IFGS standard as set forth in accordance to the International Fuel Gas Code 2018.

No Permit Application will be accepted without a riser diagram of the gas piping system. (The length of pipe from the point of delivery to the most remote outlet and all branch outlets.) Also include the total BTU rating of each appliance and indicate on the drawing all pipe type & sizes.

CSST INSTALLATIONS:
The following is required for permit applications whether the installation involves new install or extension of existing that includes CSST piping:

1. A copy of the installer’s certification from the manufacturer for the installation of CSST.
2. An electrical permit is required for the bonding of the CSST

Example:

Bonding of CSST can be done to any of the following locations:
1. Cold Water Meter
2. Ground Rod
3. Footing Bond
4. Electric Panel*

*Not Recommended
