*Includes blood test, urinalysis, hemoccult stool test and blood pressure check.

**FIT or Fecal Immunochemical Test** is highly accurate colorectal screening test. It is a sensitive, easy to use test for pre-cancerous polyps and colon cancer. It detects ONLY human blood, not food dyes or blood from food. Requires only one stool sample. The kit is sent directly to the lab after getting sample. (* This test is completed in place of the Hemoccult Stool Test.)

**IN-PERSON Registration REQUIRED Starts:**
MONDAY, APRIL 17 — 9 am - 4 pm

AT THE BERNARDS TOWNSHIP HEALTH DEPARTMENT
262 South Finley Avenue, Basking Ridge, NJ 07920
