

BrainSTEM Summer Camp

A BrainSTEM Ventures LLC Co.

Engineering

Ridge High School

Robotics

Date: July 10-21

Robotics Session: Design, build and program your own custom robots to meet a variety of specified challenges. Enhance your problem solving skills & learn about gears and sensors! Facilitated by Mark Dotta, Ridge High School Engineering Teacher. LEGO NXT kits provided!

Engineering Session: To provide students with engaging hands-on activities that promote learning, while stimulating problem solving, creativity and life skills. Projects will help inspire and encourage students interested in technology and engineering. Students will also draw on CAD!

Course Offerings

~**Robotics Session:** 9:00am - 12:00pm

~**Engineering Session:** 1:00pm - 4:00pm

Tuition: \$600.00 per session or

\$1000.00 for both sessions
