

## **Bernards Township Direct Install Program 2010**

### **1. Municipal Buildings (excluding Township Library)**

Donnelly Energy Solutions (authorized contractor for the BPU) has conducted energy audits and has provided proposals for the NJ Clean Energy Direct Install Program for 6 facilities in the Township. Upgrades shall be performed on Town hall, Engineering/DPW, Health Department, Police Department, and the Community Service/Grounds Building

The Township shall receive \$243,248.13 worth of work, of which the Township is responsible for a total of \$110,500.26, which is further reduced by \$20,000.00 in Grants.

These energy efficient measures include lighting and HVAC measures which will save energy and greatly reduce the Township's carbon footprint.

It has been estimated by BPU that our annual energy savings would total \$54,034 and the payback would be approximately 2 years.

### **2. Township Library**

Donnelly Energy Solutions (authorized contractor for the BPU) has conducted energy audits and has provided proposals for the NJ Clean Energy Direct Install Program for the Bernards Township Library.

The Township shall receive \$136,641.25 worth of work, of which the Bernards Township Library is responsible for a total of \$86,641.25.

These energy efficient measures include lighting and HVAC measures which will save energy and greatly reduce the Township's carbon footprint.

It has been estimated by BPU that our annual energy savings would total \$22,218 and the payback would be approximately 4 years.
