9. [Description of the Existing Property and the Proposal/Request]

The subject property is the southwest corner lot at the intersection of North Maple Avenue and East Allen Street. The property is surrounded by the Presbyterian Church's cemetery to its south, a single family residence to its west, East Allen Street and the lawn of Lot 23 to its north and North Maple Avenue and single family homes thereon to its east. The only structure on the property is a single family, two and one half story frame residence, which is in a severe state of disrepair. The Applicant recently purchased the property from the survivor of two related women (mother and daughter or sisters) who had owned it since 1983. While the Applicant has no direct knowledge of the history of the home, the existence of three (3) separate electric meter cases on its exterior (only one holding a meter presently), suggests that the home was at some point used as a multi-family residence, presumably without legal authority.

The Applicant proposes to raze the existing single family home down to the foundation and to replace it with a modern home of similar architecture to the existing home, utilizing the existing foundation provided it is structurally sound. As noted, the existing home has fallen into a state of extreme disrepair, and in any event its internal configuration is not reasonably conducive to reconfiguration to meet the needs of a modern family. The proposed new home would better meet the needs and desires of a present day family in Bernards Township, given the number, types and layout of the interior rooms and given the inclusion of an attached two car garage and a two car driveway (the existing home has no onsite parking, requiring parking on the very narrow East Allen Street).

10. [Description of Requested Variances or Exceptions]

This is an application for bulk variances for front, side and rear yard setbacks and for lot coverage. The subject lot is also non-conforming as to area, width and improvable area, but these are existing non-conformities that would not be exacerbated by the Applicant's proposal.

With the exception of the aforementioned variances, the Applicant believes that no other variance, waiver or exception is required in order to grant the approval requested. However, if the Board directs that additional variance(s), waiver(s) or exception(s) is/are needed, the Applicant may seek the same in accordance with such direction.

11. [Arguments in Support of Application]

The variances requested are “C-1” variances, based upon the hardship created by the lot being undersized and being a corner lot, and by the location of the lawfully existing home, the foundation of which the Applicant hopes to preserve. The variances are also supported under “C-2” a/k/a “flexible C” analysis, in that the purposes of the Municipal Land Use Law, N.J.S.A. 40:55D-1, *et seq.*, would be advanced by a deviation from the zoning ordinance requirements and the benefits of the deviation would substantially outweigh any detriment. Specifically, the proposed redevelopment of the lot would serve the following purposes of the MLUL: (h) (to encourage the location and design of transportation routes which will promote the free flow of traffic while discouraging location of such facilities and routes which result in congestion or blight); (i) (to promote a desirable visual environment through creative development techniques and good civic design and arrangement); and (j) (to promote the conservation of historic sites and districts, open space, energy resources and valuable natural resources in the State and to prevent urban sprawl and degradation of the environment through improper use of land). Furthermore, the replacement of the existing deteriorated and outdated home with a modern home would assist in conserving property values in the neighborhood as whole, which remains a purpose of land use regulation even though that goal is not expressly stated in N.J.S.A. 40:55D-2. Home Builders League of S. Jersey, Inc. v. Township of Berlin, 81 N.J. 127, 144–45 (1979).

The Negative Criteria are also satisfied as the variances can be granted without substantial detriment to the public good and will not substantially impair the intent and the purpose of the zone plan and zoning ordinance. Like the existing home, the proposed home will be one of only three homes on East Allen Street, with open space to its south (cemetery) and to its north (large lawn area on Lot 23). While the home to its west (which was recently constructed with similar variance relief) will obviously be in close proximity, the two homes together will be surrounded to the south and west by the openness of the cemetery. Given these surroundings, having a larger home on this particular undersized lot will not have a detrimental effect upon the public good or the zone plan.
