Background Information and FAQ's

What Is Ag Day?

It's a day to recognize and celebrate the abundance provided by agriculture. Every year, producers, agricultural associations, corporations, universities, government agencies and countless others across America join together to recognize the contributions of agriculture.

When Is Ag Day?

Ag Day is celebrated on March 19, 2024. National Ag Day falls during National Ag Week.

Who Hosts Ag Day?

The Agriculture Council of America hosts the campaign on a national level. However, the awareness efforts in communities across America are as influential - if not more - than the broad-scale effort. Again this year, the Ag Day Planning Guide has been created to help communities and organizations more effectively host Ag Day events.

What Is Ag Day All About?

Ag Day is about recognizing - and celebrating - the contribution of agriculture in our everyday lives. The National Ag Day program encourages every American to:

- Understand how food and fiber products are produced.
- Value the essential role of agriculture in maintaining a strong economy.
- Appreciate the role agriculture plays in providing safe, abundant and affordable products.

Why Celebrate Agriculture?

Agriculture provides almost everything we eat, use and wear on a daily basis. But too few people truly understand this contribution. This is particularly the case in our schools, where students may only be exposed to agriculture if they enroll in related vocational training.

By building awareness, the Agriculture Council of America is encouraging young people to consider career opportunities in agriculture.

Each American farmer feeds more than 165 people ... a dramatic increase from 25 people in the 1960s. Quite simply, American agriculture is doing more - and doing it better. As the world population soars, there is an even greater demand for the food and fiber produced in the United States.

What Can I Do to Help?

Put simply, get involved! Your participation in Ag Day is critical in helping us spread this positive message about agriculture. If you are interested in planning an event, download your Planning Guide today. Of course, there are other ways you can lend your support, including sending a letter to your local newspaper, calling your Congressional representatives or simply sharing information about agriculture with youngsters in your community.
